

## **EVERYONE'S UNIVERSE!**

**Everyone's Universe:** A Guide to Accessible Astronomy Places (second edition) is an empowering book that removes barriers to learning about the night sky. Includes a travel directory that identifies specific science museums, observatories and planetariums with:

**Mobility Access** for people who use wheelchairs

**Low vision and tactile access** for people who are blind or visually impaired

**Specialized environments** for people with neurological disorders, including autism

Assistive technology for nonverbal communication

Non-hearing access for people who are deaf or hearing impaired
